I MARMI

INSTALLAZIONE - INSTALLATION

Posa, manutenzione e una nota sul gres porcellanato smaltato levigato.

La serie I Marmi nasce da un lungo e complesso progetto di ricerca incentrato sulla creazione di un eco-marmo, ovvero gres porcellanato smaltato levigato di ottima qualità che riproduce il marmo attraverso la più avanzata tecnologia inkjet ad altissima definizione. Questa piastrella è estremamente performante grazie alle sue caratteristiche tecniche, e per preservare la bellezza del prodotto nel tempo è essenziale prestare molta attenzione ad alcuni dettagli durante la posa e nella cura quotidiana.

Ulteriori istruzioni e informazioni sono da scaricare alla pagina web: www.nomore.it/posa.

Il gres porcellanato smaltato levigato è un materiale straordinario ma, come il vero marmo, è maggiormente soggetto ad usura rispetto alla piastrella naturale. Sconsigliamo l'utilizzo del prodotto levigato in ambienti a calpestio commerciale medio-alto. Inoltre, per tutte le pose, consigliamo l'utilizzo di zerbini o tappetini negli ingressi, in modo da rimuovere l'umidità, lo sporco, e la sabbia dalle scarpe, così come anche nelle cucine e nei bagni, vicino a docce, vasche, lavelli, e zone di lavoro in generale in modo da assorbire acqua o altri liquidi ed eventuali schizzi o sporcature.

Installation and Care and a special note on polished glazed porcelain

The I Marmi collection evolved from a long and complex research project centered on creating high quality, glazed, polished porcelain marble with ultra high definition inkjet technology. The technical properties of the tile are outstanding, and to ensure the beauty of this product over time, it is essential to pay careful attention to certain details during installation. Further instructions and information must be downloaded from our webpage:

www.nomore.it/posa.

Polished, glazed porcelain marble is stunning, however, like real marble itself, it is more subject to wear than matt tile. We do not recommend using this polished product in medium-high commercial traffic situations. Furthermore, for all installations, we advise placing mats or carpets in entranceways in order to remove moisture, dirt and sand from shoes as well as kitchen work areas and in bathrooms in shower, tub, and sink areas in order to absorb water and spills.

Pose, entretien et une mention particulière sur le grès cérame émaillé poli.

La série I MARMI provient dans un projet de recherche long et complexe avec l'objectif de produire un éco-marbre. Donc grès cérame émaillé poli de la plus haute qualité réalisé par la technologie numérique en haute définition la plus avancée.

Ce carreau a des excellentes performances grâce à ses caractéristiques techniques et pour préserver la beauté du produit dans le temps est essentiel de prêter une attention particulière à certains détails lors de la pose et dans l'entretien quotidien.

Plus d'informations et des instructions supplémentaires sont téléchargeables sur la page Web:

www.nomore.it/posa.

Le grès cérame émaillé poli est un matériel exceptionnel, mais comme le vrai marbre, il est plus sujet à l'usure du carreau naturel.

Nous ne recommandons pas d'utiliser le produit poli dans des environnements commerciaux à passage moyen-haut. En outre, pour toutes les installations, nous recommandons l'utilisation de tapis ou essuie-pieds à l'entrée, afin d'éliminer l'humidité, la saleté et le sable dans les chaussures. Même chose dans les cuisines et salles de bains, près des douches, baignoires, lavabos, et des zones de travail en général, afin d'absorber l'eau ou d'autres liquides.

Verlegung, Behandlung und Sonderanweisungen fuer glasiertes und poliertes Feinsteinzeug

Die Serie I Marmi kommt nach einer langen und komplexen Produktforschung zur Erscheinung. Es handelt sich hier um ein glasiertes und poliertes Feinsteinzeug von hoechster Qualitaet. Diese Produkt ist aeusserst anspruchsvoll. Um jedoch seine Eigenschaften erhalten zu koennen, auch im laufe der Jahre, muss mann gewisse Vorschriften beachten bezueglich der Verlegung und der Alltaeglichen reinigung. Die Hinweise dafuer koennen Sie auf der Webseite www.nomore.it/posa runterladen.

Glasiertes, poliertes Feinsteinzeug ist ein Aussergewoehnliches Produkt, aber wie der echter Naturstein, kann es mehr Verschleiss unterliegen als unpoliertes Feinsteinzeug. Dieses Material eignet sich nicht fuer Oeffentliche Bereiche mit hohem bis mittelmaessiger Belastung. Fuer Die Verlegung raten wir den Gebrauch von Matten oder Teppiche im Eingangsbereich. Somit werden Dreck, Sand und Feuchtigkeit abgetreten und vermeiden den Bodenbelag zu beschaedigen. Dies ist auch in Bad und Kueche zu raten um Flecken und naesse zu vermeiden.

SOLUZIONI DI POSA
cm 30x60 - 12"x24"
cm 40x80 - 16"x32"
Per una corretta realizzazione si consiglia di posare i formati lunghezza 60 cm e 80 cm, sfalsati a correre di massimo 20 cm o posa pari

INSTALLATION INFORMATION
cm 30x60 - 12"x24"
cm 40x80 - 16"x32"
For 60 cm (24") and 80 cm (32") long tiles, staggering should not exceed 20 cm (8")

VERLEGEBEISPIELE
cm 30x60 - 12"x24"
cm 40x80 - 16"x32"
Für eine korrekten und einwandfreien Belag, die Formaten mit 60 cm und 80 cm Länge sollten bei der Verlegung maximal 20 cm versetzt sein.

SHADE VARIATION
MODERATE (V3)
